Declaration of Zurich

The participants of the Partnership Event organised in March 2013 in Zurich would like for the future of the Network:

- An event dedicated to the exchanges of ideas, networking and learning.
- To have a place where the participants can exchange on partnerships and to have some concrete tools.
- Maintain the distinction between the autumn and spring sessions (Partnership Event).
- A specific theme for each event decided one year in advance (October & March sessions)
- To change the way of working of the network introducing more modular sessions with project interest: thematic, regions or projects (UNGUUVU, AMAHORO AMANI...). These sessions will be continued at every meeting.
- To reinforce the role of the troika to insure the continuity of the network and have specific time in the agenda of the meetings for the troika to meet. Troika concept must remain flexible.
- An online source of information on partnership.
- To change the name of the network (to be decided at the October session 2013).
- To invite the partners for the Partnership Event depending of the theme interest and the needs.
- To include WOSM as facilitator and support of the troika.
- To encourage WAGGGS to be active in this network
